

Where there's packaging like this . . .

. . . there's vacuum pumps nearby.
Or, THESE are the droids you are looking for.

**Large line unit
1-2 RV630's underneath in
the cabinets**

**Manual unit will
have smaller
pumps.**

ASK YOUR CUSTOMERS:

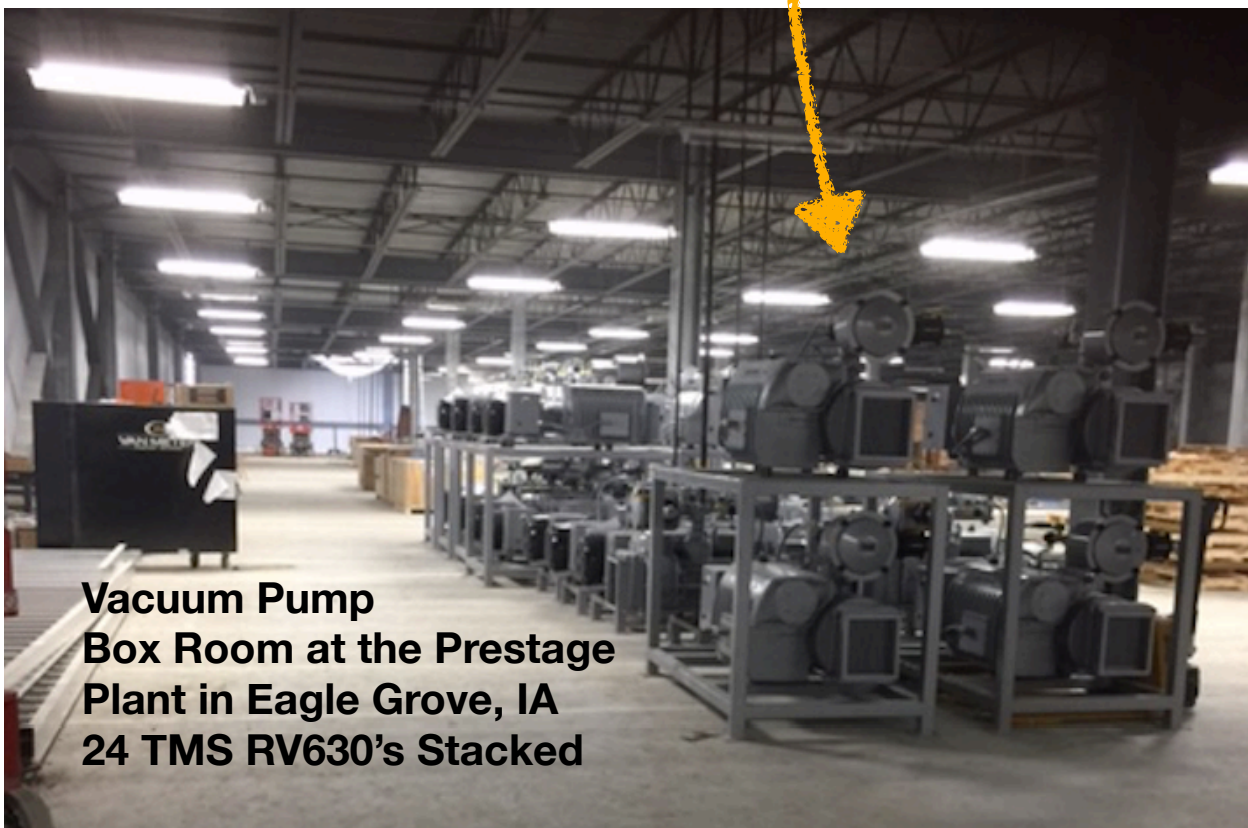

- 1. How many Cryovac, Multivac, Ultrasource or Rollstock units do you manage?**
- 2. Do you have a Box Shop for your big 630's?**
- 3. Are your boosters 1000's, 1500's or 2000's?**

**Vacuum sealed food packaging lines like this will have the following vacuum equipment:
2-3 each RV630 vacuum pumps
1-2 each RL1000-2000 booster pumps**

Vacuum piped from OEM equipment to "box room"

**Target plants will have as many as 6-12 of these packaging machines totaling per plant:
12 to 36 Vacuum Pumps
6 to 24 Boosters**

**Vacuum Pump
Box Room at the Prestage
Plant in Eagle Grove, IA
24 TMS RV630's Stacked**
